Intake Safety Policy

Clients are to bring no more than 10 days of clothing with them to treatment. If additional clothing is needed due to change in weather, weight changes etc. clothing items will have to be sent home or placed in storage as new clothing items are brought in. Clients can have up to 5 pair of footwear while in treatment. All items will be heat treated before the client can bring them into the living area. If the client has items that they refuse to have heat treated those items will be sent home or placed in onsite storage until the client completes treatment. All suitcases and carry bags will be heat treated and kept in storage.
